By checking this box, I the undersigned, certify that the property where the work will be undertaken has, or will have before the proposed project completion date, a fire alarm system or a smoke alarm complying with the requirements of the Stille-DeRossett-Hale single state construction code act, 1972 PA 230.

Brief Project Description _____

Signature of Applicant
Signers Role Owner Contractor

The Commission will only review applications that include adequate and clear information. Please review your application with Commission staff to be sure it is complete.

Include plans, elevations, site plans, sketches, details, specifications and product information as needed.

All information should be provided on 8 ½ x 11-inch paper.

Manufacturer's name and literature is required for replacement windows and all man-made exterior finishes.

For new construction both plan and elevation drawings are required to show how the project will relate to existing and adjacent structures.

LOCAL HISTORIC DISTRICTS ACT

Act 169 of 1970

399.201a Definitions.

Sec. 1a.

As used in this act:

(i) "Fire alarm system" means a system designed to detect and annunciate the presence of fire or by-products of fire. Fire alarm system includes smoke alarms.

(t) "Smoke alarm" means a single-station or multiple-station alarm responsive to smoke and not connected to a system. As used in this subdivision, "single-station alarm" means an assembly incorporating a detector, the control equipment, and the alarm sounding device into a single unit, operated from a power supply either in the unit or obtained at the point of installation. "Multiple-station alarm" means 2 or more single-station alarms that are capable of interconnection such that actuation of 1 alarm causes all integrated separate audible alarms to operate.

399.205 Permit required; completed application; certificate of appropriateness or notice to proceed; issuance; permit fee; appeal to review board and circuit court; plan review standards, guidelines, and considerations; scope of review; preservation plan; approval; conditions; public meeting; availability of writings to public; rules of procedure; approval of minor work; finding of demolition by neglect; restoration or modification of work done without permit.

Sec. 5.

(1) A permit shall be obtained before any work affecting the exterior appearance of a resource is performed within a historic district or, if required under subsection (4), work affecting the interior arrangements of a resource is performed within a historic district. The person, individual, partnership, firm, corporation, organization, institution, or agency of government proposing to do that work shall file an application for a permit with the inspector of buildings, the commission, or other duly delegated authority. If the inspector of buildings or other authority receives the application, the application shall be immediately referred together with all required supporting materials that make the application complete to the commission. A permit shall not be issued and proposed work shall not proceed until the commission has acted on the application by issuing a certificate of appropriateness or a notice to proceed as prescribed in this act. A commission shall not issue a certificate of appropriateness unless the applicant certifies in the application that the property where work will be undertaken has, or will have before the proposed project completion date, a fire alarm system or a smoke alarm complying with the requirements of the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531. A local unit may charge a reasonable fee to process a permit application.
